Education:
Digital Crafts - Full Stack Web Development (January 2021 Cohort)
Lamar University - Bachelor of Science Sociology

Software Development Skills:
HTML, CSS, JavaScript, Bootstrap, AJAX, JQuery, Node.js, Express, APIs, Postgres, Sequelize ORM, React, Redux

Portfolio:
Recipe Finder App **|** *Recipe-Finder App*
- Worked on a team with one other person to create this recipe finding application.
- Users can search for recipes using ingredients, meal name or cuisine to find tasty meals. They can also click for random drinks to go with their meals.
- This was a front end project. Utilized HTML, CSS, JavaScript and two APIs for the meal and drink data.

Tailgators App **|** *Tailgators App*
- Worked on a team with two other people to create this application. The purpose of the app is to allow users to create their own tailgates for various events.
- Users can initialize CRUD applications by creating an account, updating account information, deleting their account and creating events.
- My main focus was on the front end where I utilized HTML, CSS and JavaScript.
- This was a full-stack project. We utilized JavaScript, HTML, CSS, Express, Sequelize and ElephantSQL to complete the project.

Dev Arcade **|** Dev-Arcade App
- This project was a class-level sprint where we participated in Sprint Ceremonies including kickoff/ backlog grooming, daily standup, code review and Q&A.
- Our three person group created the Minesweeper game for the arcade. We created the game using React and Redux.
- This was a full stack project and my focus was on the front end aspect.

To The Moon **|** To The Moon E-Commerce
- Worked on a team with three other people to create this application. This is an e-commerce application that allows users to purchase tickets to either the Moon or Mars.
- My main focus was on the front end where I utilized React and Material UI.
- This was a full-stack project. We utilized React, Node.JS, Postgres and Stripe.JS to complete the project.

Professional Work Experience:
La Grange ISD - Colorado River Cooperative - CRC (Formerly CRSSA)
